GP Announces New Rear Entry Spray Gun: DG4000

General Pump has introduced a new rear-inlet spray gun, the DG4000. The GP design of the DG4000 offers minimum pressure drops with maximum flow. The trigger is designed for low fatigue, allowing for continued use without tiring the hand. All flow passages are designed for minimum pressure drop, and maximum flow. The large comfortable hand grip of this premium gun will accommodate work gloves, making it perfect for long working conditions. Additional venting of the DG4000 allows for excellent high temperature performance in addition to a durable glass-filled housing and a trigger made from 30% glass filled PA66. Call or fax for more information. Phone: 888-474-5487 X199 or 651-686-2199. Fax: 800-535-1745.
