GP Introduces New High Flow Pump: the MKS

General Pump has introduced a high-flow triplex plunger pump, the MKS Series. The MKS Series offers versatility with flows from 48.7 to 128 GPM and pressures from 2100 to 5800 PSI. With its unique pressure packing cooling system, this pump can withstand a variety of applications. The MKS also offers high volumetric efficiency suction/delivery valves featuring new spherical design of sealing areas, along with splash lubrication and is also available with external gear box in 1500/1800 RPM, positionable on left or right. Call or fax for more information. Phone: 888-474-5487 X199 or 651-686-2199. Fax: 800-535-1745.
