DHRUM

Universal Mounting Kit for DHRTM50200

The DHRUM mounting kit can be used to mount your DHRTM50200 trailer mount hose reel to a wall or a wide range of portable pressure washer frames. The clamp system securely attaches to any round pipe or square tube frame up to 2" in size/diameter. The clamps grip to the frame to prevent slippage. The bracket consists of one powder-coat & rust-proof aluminum receiving socket, four galvanized steel clamps, and four stainless steel nuts and bolts.

SAFETY PRECAUTIONS

- Lag or anchor bolts for wall mounting not included.
- Do not exceed weight of DHRTM50200 hose reel fully loaded.
- Must mount to a secure structure that will support the weight or load of DHRTM50200 and its contents.
- **WARNING: High Pressure Systems require a primary pressure regulating device (i.e. regulator, unloader) and a secondary pressure relief device (i.e. pop-off valve, relief valve). Failure to install such relief devices properly could result in personal injury or damage to pump or property. GP does not assume any liability or responsibility for the operation of the user's high pressure system.**
